

## Business Intelligence Analyst

**Location: Merelbeke, Belgium**

### Job description

Ziphius Vaccines is a biotech company that focusses on the development of RNA-based vaccines for infectious diseases and therapies for rare genetic diseases. We are currently looking for a Business Intelligence Analyst to support our research and development projects. You will be working in a young and dynamic environment where collaboration and teamwork are encouraged.

### Responsibilities:

- The Business Analyst at Ziphius is a multidimensional position, responsible for leading detailed research and analysis on assigned competitive and market topics in support of business strategy.
- Conduct market research related to existing or new business. Reading and summarizing scientific articles, patents, literature on pre-/clinical performances.
- Map competitive landscape in terms of technology, product portfolio, clinical trial and patent landscape, costs and financials. Topics may include, amongst others: RNA technology, RNA delivery, infectious diseases, rare genetic diseases.
- Synthesize data and transform to insights and recommendations to drive actions and change.
- Develop business cases and create effective presentation materials/documents for all audiences including senior leaders.

### Preferred qualifications

- You have a Master's degree in the life sciences.
- Experience or affinity with searching for scientific literature, and information concerning clinical trials and patents in appropriate databases.
- Ability to read, analyze, and summarize scientific articles, clinical and medical terminology.
- Relevant experience will be considered an advantage, a pronounced passion for the biotech industry is key.
- Excellent Dutch and English writing skills.
- You have an eye for detail and are eager to learn.
- Ability to handle multiple projects, prioritize work and meet deadlines.
- You are pro-active and have the ability to work independently and under time-pressure.

### What we have to offer

The position is full-time. We offer you a challenging career in a dynamic and fast-growing company, including opportunities for strong personal development within a multidisciplinary environment. We offer a market-compliant salary, including an attractive package of fringe benefits. Besides an interesting job, we pay attention to a pleasant working environment and a healthy work-life balance (f.ex. 12 ADV days on top of the 20 legal days off, sliding hours, free fruit, sports classes).

### Why Ziphius Vaccines?

Ziphius Vaccines' team consists of a well-balanced, diverse group of people with complementary skills. The team members are united by their common passion for science and entrepreneurship. Ziphius has a culture of creativity and innovation, supported by its values that include Transparency, Respect, Courage and Integrity.
